REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: applicants invention involves a one step process for preparing cyano acetic acid ester of formula (I) which comprises oxidizing an alkoxypropionitrile of formula (II) using oxygen or an oxygen forming reagent in the presence of a catalyst based on lead or one of the transition metals. The novel feature of this invention is that it is a one step process for preparing cyanoacetic acid ester, whereas the prior art of record WO 9212962 discloses a two step process which comprises forming cyanoacetic acid ester by oxidizing a partially-oxidized propionitrile to cyanoacetic acid, which is then converted into a cyanoacetic acid ester by acid catalyzed esterification with an alcohol.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to E. Sackey whose telephone number is (703) 305-6889. The examiner can normally be reached on Monday-Friday from 7:30 am to 4:30 pm.
